CLONE RECORDS

Clone: legendary Dutch dance label

There are influential labels, stores and distribution companies in dance music, but Clone is a major player for all three. With a successful brick & mortar store in Rotterdam and a sleek, user-friendly [webshop](#), Clone filters the best of every subgenre into its offerings. Now with its very own drip, members will receive at least two releases each month from its vast catalog.

We recently returned to Amsterdam for ADE, and were reminded of the [significant impact](#) Clone has had on the music that we love. Drexciya, Legowelt, Alden Tyrell, Space Dimension Controller, Conforce, A Made Up Sound...the list of important producers affiliated with Clone is, in essence, an endless one.
